Catarrh.

Dr. Gardner, of New York, who is now at Parlor H, first floor, at the Monongahela House, treats Catarrh by the use of warm Medicated Inhalation. The afflicted should go and consult him.

Disease of the Eye, Ear and Catarrh.

Dr. Gardner, the celebrated Oculist and Aurist, of New York, is now at the Monongahela House, Parlor H, first floor, and can be consulted daily on all diseases of the Eye, Ear and Catarrh. Read the following opinions of the press:

The Louisville *Journal* says: "The testimonials which Dr. Gardner presents to the public could never have been obtained, except by the display of great skill and learning in his profession. One thing especially commendable in the Doctor's practice is, that he will not attempt an incurable disease for the sake of a fee, but frankly tells the patient whether he can be cured or not. We cheerfully recommend Dr. Gardner to the attention of all our friends who may be suffering from diseases of the eye or ear."

The Indianapolis *Journal* says: "We have no hesitation in saying that Dr. Gardner is the most scientific and successful eye and ear Surgeon in the West."

"Dr. Gardner's treatment of the eye and ear is wonderful."—*Milwaukee Daily News.*

"We feel justified in recommending Dr. Gardner to those suffering from diseases of the eye and ear."—*Wheeling Intelligencer.*

"We can safely and cordially recommend Dr. Gardner, who will fulfil all he undertakes to perform."—*Baltimore Clipper.*

The Indianapolis *Daily Gazette* says: "We can safely recommend Dr. Gardner as a successful operator on the eye and ear. He will not undertake to treat a case unless a cure can be effected."

The Wheeling *Register* says: "Dr. Gardner is one of the most successful Oculists and Aurists in the country. We advise those suffering from the diseases of the eye and ear to consult him."

A Broken Down System.

There is a disease to which the doctors give many names, but which few of them understand. It is simply weakness—a breaking down of the vital forces. Whatever its causes (and they are innumerable), the symptoms are in the main the same. Among the most prominent are extreme lassitude, loss of appetite, loss of flesh, and great mental depression. Indigestion and a *Stomach Cough* are also frequently concomitants of this distressing state of body and mind. The common remark in relation to persons in such a condition is, that they are consumptive. Now, what these unfortunates really want, is *vigor—vital strength*, and as certainly as dawn succeeds darkness they can recuperate their systems and regain perfect health by resorting to Hostetter's Celebrated Stomach Bitters. It is as clear that a life-reviving Tonic is required in such cases, as that the dying flame of an empty lamp requires to be revived with a new supply of oil Perfectly pure and innoxious, containing nothing but the most genial vegetable extracts, and combining the three grand elements of a stomachic, an alterative, and a general invigorant. Hostetter's Bitters are suitable to all constitutions, and are as applicable to the diseases and disabilities of the feebler sex as to those of men.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 61 Market street, corner of the Diamond and Fourth street.

CELEBRATION OF ST. PATRICK'S DAY.

SPEECH OF THE GOVERNOR.

NEW YORK, March 17.—The *World's* special Montreal dispatch says the government has just received a letter from an official in Windsor, C. W., stating that the Mayor of Detroit had informed him that he had caused an inquiry to be made into the extent of the Fenian movements in that city, and discovered that there was a likelihood of an attack from that point. The government have also been notified that the American Government are sending troops to Buffalo to prevent any attack from that quarter.

The Six Nation Indians, which Droquois colonized on the Attana river under a descendant of the celebrated Brant, last evening tendered the services of 1,500 of their braves to the government.

An officer of the Royal Engineers stated that orders were sent to England five weeks since for ten thousand soldiers, to be landed at Halifax, who will march from thence to New Brunswick, where the vulnerable point is feared to be. These troops are expected in ten days, and on their arrival at New Brunswick, it is considered all will be safe. The ships of war Ariadne and Pylades are even now in the Bay of Fundy.

Sir Frederick Bruce has ordered the West Indian squadron to sail immediately for Halifax, with all the dispensable troops in the West Indies.

The excitement here has very much abated. The Montrealers generally believe that the Roberts and Sweeny faction must give their supporters something for their money, but that the attack will be on the upper province and in New Brunswick, but not here or at Quebec. They deem it utter madness to attempt the capture of either of these cities. They are, however, actively arming, so that they may guard the city in the event of the troops and volunteers being needed elsewhere.

TORONTO, March 17.—It is reported that a United States Revenue Cutter is watching the Fenians off Ogdensburg. Large reinforcements from England are expected shortly; there are some regiments of cavalry among them. At present there are about ten thousand regulars in Canada, besides eleven thousand volunteers, on duty. There are at least fifteen thousand fully armed militia ready to move at a moment's notice, and eighty thousand more could soon be made available. The government has an immense number of veteran officers, well drilled, to lead the militia. There is a large number of volunteers at St. John, and they are daily increasing. There was some little excitement on the Western frontier last night, occasioned by a noisy demonstration in honor of St. Patrick's day. The troops were under arms all night, but all is quiet to-day.

MONTREAL, March 17. This was a great day in Montreal. The Irish population turned out in force, and the whole town took part. For several squares east and west of St. Lawrence Hall. The procession halted to pay their respects to His Excellency. Several national and loyal tunes were played when His Excellency appeared at one of the windows of the hotel. This was the signal for tremendous cheers. His Excellency spoke as follows: As the representative of your sovereign, I thank you for this exhibition of loyalty paid to me. I have every reason to believe that the sentiments of my fellow countrymen in Canada towards my self, as the representative of Queen Victoria, gentlemen, I do not treat this magnificent demonstration as any mark of personal respect to myself. I accept this demonstration as an evidence on your part of loyalty to your sovereign; [Enthusiastic cheers.] of attachment to the institutions of our land; a protection on you, to guard against the principles of wicked men who would disgrace the name of Irishmen, (Cheers,) and desecrate the day of her patron Saint by a wanton attack on a peaceful, prosperous and happy country. The procession then moved to the High Market where the vast assemblage was addressed by Sam. Thompson, Darcey McGee, Major Starnes and the President of the several Irish societies. The speeches were national and loyal, and from the manner in which the speakers were received there is no doubt as to the loyalty of the Irishmen of Montreal, or that they will be foremost in the ranks to resist any invaders, come from whatever quarter they will.

ST. JOHN, N. B., March 17.—Gov. Gordon, yesterday sent a message to the New Brunswick Legislature, in which he said that although the American Government had given satisfactory assurances that its agents would permit no raiding parties to cross into the provinces, yet their vigilance might be eluded, therefore, some portion of the provincial militia should be called out to protect the province from insult. Money would be required to support the necessary force, and the Governor therefore recommended the passage of resolution in reply to the message, placing the whole revenue of the province at the disposal of the Governor for the purpose of its defense. All the militia and volunteers, barracks, &c., in St. John are guarded by the regular troops and volunteers.

TORONTO, C. W., March 17,—St. Patrick's Day passed off here without any disturbance. The Hibernians paraded in procession and made some attempts to cheer O'Mahoney, but little attention was paid to them.

NEW YORK, March 18.—The steamers St. John and Dean Richmond, commence their trips to Albany to-morrow.

A special Ottawa dispatch, of the 17th, says: All is quiet. No procession; the leading Irishmen having decided to substitute a banquet. Much satisfaction is expressed in high quarters at the good faith of the United States Government.

A special from Toronto, says: All was quiet at Kingston. The troops were under arms all night, but no enemy showed itself. The Canadian Parliament was prorogued till the 24th inst. of March, and not then to meet for the despatch of business.

It is reported at Toronto, that heavy cannonading and small arms were heard at Sarnia, on Saturday morning. Probably peccadilloes to alarm the Canadians. Considerable anxiety is manifested to hear from frontier points.

Intelligence from Sarnia, on Friday night, ready to run to the frontier.

CONCLUSION OF FRIDAY'S HOUSE PROCEEDINGS.

WASHINGTON, March 16, 1866.

Mr. Garfield addressed the House in advocacy of the Loan bill.

After considerable debate the previous question was seconded on the loan bill—97 to 37. Stevens' substitute therefor was lost, 31 to 72.

Mr. Morrill's amendment, striking out the foreign clause, was adopted.

Mr. Stevens' second amendment, authorizing the Secretary to exchange all indebtedness for the purpose of returning Treasury notes, was rejected; yeas 61, nays 71.

The previous question recurred on the passage of the bill, which, as amended, is as follows: It provides that the act of March 3d, 1863, shall be interpreted and construed to authorize the Secretary of the Treasury, at his discretion, to receive any Treasury notes or other obligations issued under any act of Congress, whether bearing interest or not, and lawfully held by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rates as he may think advisable for the refunding of the principal and interest of Treasury notes, certificates of indebtedness, certificates of deposit, or other representatives of value which have been, or which may be, issued under any of the provisions of said act, and the proceeds of any sale of bonds authorized by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rates as he may think advisable for the purpose of paying any of the Treasury notes, certificates of indebtedness, certificates of deposit, or other representatives of value which have been, or which may be, issued under any of the provisions of said act, and the proceeds of any sale of bonds authorized by this act, which this is an amendment, and also to dispose of any description of bonds authorized by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rates as he may think advisable for the purpose of paying any of the Treasury notes or other obligations issued under any act of Congress, whether bearing interest or not, and lawfully held by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rates as he may think advisable for the refunding of the principal and interest of Treasury notes, certificates of indebtedness, certificates of deposit, or other representatives of value which have been, or which may be, issued under any of the provisions of said act, and the proceeds of any sale of bonds authorized by this act, which this is an amendment, and also to dispose of any description of bonds authorized by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rates as he may think advisable for the purpose of paying any of the Treasury notes or other obligations issued under any act of Congress, whether bearing interest or not, and lawfully held

FOR GOVERNOR:

MAJ. GEN. JOHN W. GEARY,

OF CUMBERLAND COUNTY.

NOTICE TO ADVERTISERS.

Notice is hereby given that hereafter all TRANSIENT advertisements received at this office must be paid for when handed in, except in the case of yearly advertisers, whose bills will be rendered quarterly, as usual. Advertisers will please make a note of this, as the rule of cash payments for advertisements of the character stated, will be inflexibly enforced.

The price of our Morning and Evening editions is THREE CENTS at the counter or from newsboys. Served by carriers at FIFTEEN CENTS per week.

TO OUR EVENING SUBSCRIBERS.

The subscribers to our evening paper will be supplied by the carriers, henceforward, with our morning edition, and we trust the change will be satisfactory to them.

During the progress of the war an evening edition was a public necessity; but the war being over, and with it the excitement that craved news as often as it could be had, the necessity for keeping up two daily editions of the paper has passed away. We have determined, therefore, to merge the two editions in one, and to concentrate all our energies on our morning paper. We feel assured that in doing so we shall be able to make a better paper for our readers, and to issue it with more satisfaction to ourselves. Our paper is now printed as neatly as any paper in the West, and our reporters being relieved from the hurry necessarily attendant upon getting out two papers a day, will be enabled to give more time, and care, and attention to their duties.

The circulation of our morning edition, under this arrangement, will be equal to that of both our editions, heretofore. It is therefore, an excellent medium for advertising.

THE proposition of Senator SHERMAN, of Ohio, that the amount of greenbacks now in circulation shall not be reduced below $420,000,000, meets with severe condemnation at all points. It is a project made in the interest of those who wish to keep the currency inflated and put off the resumption of specie payments as long as possible, so that the spirit of speculation may have full sway and the downward tendency in prices be checked.

We sincerely trust that such a proposition will meet with no favor in the Senate or House. The great mass of the people are anxious to have the currency contracted as rapidly as it can be done safely, and a return to specie payments made sure at an early day. It may be that this contraction cannot be carried on very rapidly, and that the necessities of the government, growing out of the immense amount of its temporary obligations that will mature within the ensuing two years, will compel it to abstain from all measures that are likely to produce a tight money market; but the public voice demands that no *other* obstacle than the necessities of the government shall be thrown in the way of the policy of restoring our paper money to the specie standard. The process of contraction may be slow, but let it be sure; and if it becomes possible to reduce the volume of national currency, below the point named by Mr. SHERMAN, and necessary to do so in order to make our paper equal to gold, no legislative prohibition should be permitted to stand in the way.

A NEW PHASE OF RECONSTRUCTION.—Two citizens of Ohio, DUNHAM and PERRILL, rented from the United State Commissioner an abandoned plantation in Louisiana, owned by one HARRIS, a rebel, and after raising one crop from it turned it over to the Government. HARRIS, having been reconstructed, has returned to his home, and one of his first acts was to have DUNHAM and PERRILL indicted for larceny, in stealing the crop which they raised, valued at $500,000; and on this indictment the Governor of Louisiana demanded their surrender of the Governor of Ohio, as criminals. Strange to say, the Governor of Ohio (COX), issued his warrant for their extradition at once, holding that Louisiana is in the Union, and the requisitions of her Governor must be obeyed! If there is any other business that this Cox is good at, let him go to it at once; he evidently is not fit for Governor.

We have, in this case, an illustration of what "Reconstruction" will effect, as understood down South, to-wit: The indictment of all Northern men who occupied Southern property during the war, and their punishment, if they are caught. Fortunately, but few of the Northern States have Governors like Cox.

CONNECTICUT.—The next State election that takes place is that of Connecticut, which votes early next month. The canvass is already an exciting one, and grows in interest every day. Gen. NYE, of the United States Senate, has just closed a stumping tour through the State, and gives a glowing account of the prospects of the Republicans. Senator SHERMAN, of Ohio, follows him, and other eminent speakers are daily engaged at meetings throughout the State. Gen. HAWLEY, the Republican candidate for Governor, is exceedingly popular, and we do not believe he can be beaten, notwithstanding the democrats rally under the cry of "JOHNSON! JOHNSON!"

The election last year was held on the day that news was received of LEE's surrender, and the Democrats were so palsied by that news that they did not go to the polls. Gov. BUCKINGHAM's majority was accordingly 11,000. LINCOLN's majority in 1864 was 2406, and that is about the true Republican majority of the State.

THE LOAN BILL was killed in the House on Friday, after the foreign loan clause was struck out, by 66 to 68; but a motion to reconsider was made which will probably come up to-day.

The opposition to this bill arises partly from the conviction that the Secretary of the Treasury has power enough under existing laws to fund the greenbacks and all maturing indebtedness, and partly from an indisposition to entrust the Secretary with the unlimited power conferred by it. There is no lack of confidence in the Secretary, himself; but it is considered unwise to give to *any* man the power of an autocrat over the finances of the country.

CANADA.—It will be seen by our dispatches that the Fenians made tremendous demonstrations on Saturday, in the way of processions and attendance at church; but no attack was made on Canada, as expected. For the present, at least, the Fenians seem disposed to confine their efforts to raising money and to kicking up a grand fuss generally, through public meetings and otherwise; but all evidence of warlike intention, on their part, seems wanting. The Canadians do not appear to have been in any danger of invasion at any point whatever.

RHODE ISLAND.—The BURNSIDE men have carried the primary meetings at Providence, and there is now every prospect that the gallant General will be nominated almost unanimously for Governor by the Republicans. The Democrats will hardly run a candidate against him.

SENATOR STEWART'S PROPOSITION.—The Republicans of the country will respond heartily to the resolutions of Mr. STEWART, of Nevada, read in the Senate, on Friday last. Mr. STEWART is one of the "Conservative" Senators who voted to sustain the President's veto, and his resolutions are therefore all the more welcome, as betokening the growth of a more healthy sentiment in that quarter.

Mr. STEWART proposes that the Southern States shall be re-admitted when they incorporate in their Constitutions (1) a provision abolishing all distinctions as to civil rights and the voting franchise by reason of race, color or previous condition, (2) a further provision repudiating the rebel debt, and (3) yield all claim to indemnity for their emancipated slaves; these propositions to be approved by the voting population of each State according to the basis of suffrage as it existed in 1860.

To all which we say *Amen!* If the Southern States will accept these conditions let them come in, at once; if they will not, let them take the consequences. Only let them understand definitely, without quibble or reservation, that they cannot get in on any *other* terms, and that if they are kept out it will be by their own act.

THE CIVIL RIGHTS BILL, as it passed both houses, contains eleven sections, but the principal part of it is contained in the first section as follows:

"That all persons born in the United States and not subject to any foreign power, excluding Indians not taxed, are hereby declared to be citizens of the United States, and such citizens, of every race and color, without regard to any previous condition of slavery or involuntary servitude, except as punishment for crime, whereof the party shall have been duly convicted, shall have the same right in every State and Territory to make and enforce contracts, to sue and to be sued, and give evidence, to inherit, purchase, lease, sell, hold and convey real and personal property, and to full and equal benefit of all laws and proceedings for the security of person and property as is enjoyed by white citizens, and shall be subjected to like punishment, pains and penalties, and none other, any law, statute, ordinance, regulation or custom to the contrary notwithstanding."

The other sections provide the penalties for violating this one, and the machinery for carrying it into execution. The bill is now in the hands of the President, and much anxiety is felt as to its fate at his hands.

THE Reading *Journal*, published at the home of Heister Clymer, the Democratic nominee for Governor, says:

"Against Mr. Clymer, personally, we have nothing to say—against him politically, we will have much to say in the course of the campaign. His record, fortunately for the people, is a public one, and he cannot hide it. *He was the* VALLANDIGHAM *of Pennsylvania throughout the war*, and when his votes, his speeches, his acts, are thoroughly ventilated, and the people—and especially the returned soldiers—come to know his political status, he will meet with a condemnation scarcely less overwhelming than was that which befel Vallandigham, when he ran for a similar office two years ago, in the Buckeye State."

ALLUDING to the nomination of Gen. GEARY, the Pittsburgh *Post* says:

"Instead of profiting by experience, and steering clear of men of doubtful political standing, they rush after old castaway Democrats, and confer on them their highest honors. This proceeding, as in the nomination of Andrew Johnson, is for the purpose of again cheating the people. But the masses have their eyes open, and will not be again deceived."

As the Democrats were not cheated any in JOHNSON's election, they need not make themselves unhappy at the prospect of *our* being cheated again, if it is good as they think it is.

DISLOYAL AS EVER.—One of the speakers of the Indiana Democratic State Convention said:

"Why are we permitted to assemble in peace to-night? Is it because we are any more loyal than we were three years ago? No! *We are not any more loyal!*"

Truer words were never spoken.

THE New York *Times* is driven to the necessity of publishing extracts from a lot of anonymous letters endorsing its course in sustaining the President's policy. The people have another way of speaking. They do not shelter themselves under anonymous guises.

The Pennsylvania Democracy and the President.

It will be remembered that the late Copperhead Convention of Pennsylvania, after nominating Mr. Clymer for Governor, passed a resolution indorsing the President's policy. A sub-committee was appointed to come on here and present the resolution in person. This grateful mission was essayed a few evenings since. The committee were admitted to an audience with the President, and were proceeding, after the most approved fashion, to assure him that the Democracy of Pennsylvania had designed no empty compliment; that they had watched his recent action with no ordinary gratification; and that they should stand by him and his Administration so long as he so nobly adhered to the sacred Constitution. Before the peroration was reached, the President broke in upon them with the suggestion that "the wisest thing they could do was to go home and change their ticket." He believed they had made a fatal mistake in nominating such a man, especially at this particular time, with much other remarks of a similarly encouraging character. The last seen of the Pennsylvania Committeemen they were making for the Baltimore depot, in a fearfully demoralized frame of mind.—*Washington correspondence N. Y. Tribune.*

THE INDIANA DEMOCRATIC RESOLUTIONS.—The Indiana Democratic State Convention, resolve that they will support Mr. Johnson in all his conflicts with the Congressional majority. It seems to us that this is prudent, politic and, above all, cheap. If he will fight the majority, his own party, they, the minority, will hold his coat. The offer shows a high estimate of Mr. Johnson's character and sagacity.

The doctrinal part on the effect of the failure of the rebellion is free and easy. The speakers had the right to secede; therefore the attempt involves no guilt. The rule will apply equally well to the whole catalogue of crimes.

They claim that Congress is in rebellion, and call on Mr. Johnson to oust it by force. That is the way they felt all through the war, but they did not then compliment Mr. Johnson by calling on him to join them.

On the whole the resolutions are a striking mitigation of the venom of Indiana Democracy. The serpent has been out in the cold a long time; he wants to warm himself in the husbandman's bosom, and he conceals his fangs. The thing shows management, and we presume it gives the key note of the Democratic political melodies this year.—*Cin. Gaz.*

LUNATICS MURDERING THEIR KEEPERS.—A terrible scene occurred recently in the Lunatic Asylum of St. Pierre, at Marseilles, France. Three patients determined to murder their attendants. To effect their purpose they wrenched away some iron bars placed round a stove, and with them fell on the first warchman they saw, and beat him about the head till he died. Another keeper, hearing his companion's cries, came to see what was the matter, and was immediately attacked and likewise killed. The three madmen then took the keys from the pockets of their victims and entered the adjoining wards to murder the other attendants, but taking no notice of the patients. The wardsmen, however, escaped, and stopped the progress of the madmen by fastening the door on the outside. Meanwhile the whole establishment was alarmed, and the officials, after a desperate resistance, succeeded in overpowering the three murderers, without receiving any serious injury.

THE Copperhead orators and presses are constantly familiarizing their hearers and readers with ideas of revolution. John Van Buren in a speech at Bridgeport, Connecticut, on the 7th inst., after citing the example of Cromwell in purging the Rump Parliament, exclaimed of the Congress of the United States, "such a body as that, I say, is an illegal, unconstitutional assemblage. *It is in point of law a mob*, and in my judgment the Mayor of Washington neglects his duty every day in not *dispersing them as such.*" Is there an object in this kind of talk?

GENERAL NEWS.

OFFICIAL ADVICES received from South Carolina are to the effect that a band of outlaws, led by an ex-rebel major, has been committing depredations and murdering Union men and negroes on account of their devoted loyalty. The information furnished is to the effect that the Edgefield district is one of the largest and most rebellious districts in that State, and is controlled by two organized bands of outlaws —one consisting of eight men, and the other of thirteen, led by an ex-rebel major named Coleman, who has been raiding that district and committing with impunity the most fiendish outrages on Union men and freed people. They have already murdered a number of negroes and one white man without the slightest provocation; robbed and driven from their homes several Northern men who have property there. The leader of these guerillas is a desperate character, and exhibits as trophies of his prowess *eight ears cut from colored persons.*

HARRIET PARR is the real name of the English lady who writes under the pseudonyms of Holme Lee; Gail Hamilton is Miss Abigail E. Dodge; Florence Percy is Mrs. Elizabeth Akers; Timothy Titcomb is Dr. J. G. Holland; Orpheus C. Kerr is Robert H. Newell; Mrs. Partington is P. B. Shillaber; Artemus Ward is Charles F. Browne; Doesticks, P. B. is Mortimer Thompson; K. N. Pepper is James M. Morris; Josh Billings is Henry W. Shaw; Edmund Kirke is J. R. Gilmore; Ik Marvel is Donald G. Mitchell; Petroleum V. Nasby is D. R. Locke.

EMIGRATION FROM IRELAND.—The steamer Queen arrived at New York on Tuesday from Liverpool, by way of Queenstown, with nearly nine hundred passengers. The steamer Erin, which arrived on the Saturday previous, had nearly as many passengers. The large majority of these passengers were able bodied Irishmen. This does not bear out the statement that has been made that the Irishmen were all staying at home to help the Fenian movement.

THE Jackson (Miss.) *Clarion* confesses that the German immigrants engaged to locate in the southwest have not found their expectations realized, and have become disheartened and discontented, and it is feared their influence will produce such a prejudice against the country, its products, climate, and people, as will make Germans and other foreigners avoid the South. The Richmond *Times* recently made a similar acknowledgment respecting the Swedish colonists who settled in Virginia.

SENATOR FOOT, OF VERMONT.—Much anxiety is felt as to the condition of this venerable patriot; but he seems to be slowly recovering. He takes great interest in public affairs, and is especially delighted at the victory in New Hampshire. It is related that when Secretary Stanton, who calls to see him frequently, asked what he could do for him, he answered as follows: "Stay in the War Department, and so strengthen the anxious hearts of our great people."

AT Acapulco, the pretty peasant girls have an ingenious device for selling necklaces made of shells, principally in the days when the steamers arrive. Handing you a necklace they say, "Me give you a present, senor," and then retire with a love courtesy. Returning, however, in a few moments, they say, sweetly, "You give me present, senor, of a quarter dollar," which you do at once, unless you have a heart of stone.

THE whole Southern Press rings with denunciations of Thad. Stevens and Charles Sumner as traitors, because, it is alleged, they are trying to break up the Government. Will these indignant patriots pause in their fiery course long enough to tell us what is the appropriate name of those who for four years tried to do the same thing?—*Cin. Com.*

E. R. PAYNE, of Cleveland, who committed suicide at Ravenna, last week, by taking laudanum, was laboring under the hallucination that the spirit of a young lady with whom he had been in love, and who died some time since, was following him, and so put an end to his earthly existence in order to meet her in the hereafter.

THE California *Puck* tells a story in the following lines:

"Since then, dear maid, thou grant'st this boon,
Pray let us be united soon!"
Says she, "I'd be delighted!"
Then, with a twinkle in her eye,
"I've always thought that you and I
Had better be you-an'-i-ted!"

A YOUNG NEGRO, while looking down into one of the receivers of the Catoctin iron works to witness the operation of melting iron ore, was suffocated by an emission of gas, and fell headlong into the lake of fire and was consumed.

MISS COPLEY, sister of Lord Lyndhurst, and of Mrs. Gardner Green, who recently died in Boston, is now residing with Lady Lyndhurst, at the age of nine-y-three, and in good health, with her mental faculties unimpaired.

A NEW YORK merchant named Hermann, while on his way east in a sleeping car on the Michigan Central Railroad, on the 14th, had his pocket picked of $6,000 in United States bonds, and $15,000 in greenbacks.

WHY ought Andrew Johnson to be more grateful to the Democrats than to the Republicans? Because the Democrats made him President, while the Republicans only made him Vice-President.

A YORK COUNTY Democratic sheet calls General Grant a usurper and tyrant for suppressing rebel papers, and intimates that Johnson must put a stop to such proceedings.

MRS. SIGOURNEY published fifty-six books during her life, besides more than two thousand articles contributed to nearly three hundred different periodicals.

THE gold claimed by the Richmond banks remains in the vaults of the Treasury Department, and will, doubtless, be confiscated by the government.

THE President has sent to the Senate the nomination of General Frank P. Blair as Collector of Internal Revenue for the First District of Missouri.

THE authorities of Cincinnati have adopted the Nicholson pavement for all the streets hereafter to be paved and repaired in that city.

GENERAL NEWS.

A SHAWL is coming from British India for the great exhibition, on which ten years of careful labor have been devoted. Lady readers may like to know the proportions of this dainty garment; its lehgth is about five yards and a half, its width a yard and three quarters; the ground is red, and its arabesque designs are said to reach the extremest point of delicacy. It was ordered by the Queen of Oude before the revolt of the Sepoys and the seige of Lucknow.

JOSEPH MAZZINI has been elected a member of the Italian Parliament for the City of Naples. He was also voted for in his native town of Genoa, but was defeated there by a small majority. He is, however, an exile from Italy, and cannot return to take the seat to which he has been chosen, unless he should be pardoned and relieved from his disabilities.

THE New York *Times* learns that on the termination of the reciprocity treaty, new close at hand, *ad valorem* duties at twenty per cent. will be imposed by the Canadian authorities on dried fruits, furs, skins and peltries, from the United States. There will be no other material change.

THE Shreveport (La.) *Southwestern* says Mrs. Caneshas rented her magnificent plantation on Red river, opposite that place, containing over one thousand acres of cleared land, to Northern men for three years, for the sum of $54,000—being at the rate of $18,000 a year.

GEN. GRANT was invited after service in Grace Church, New York, on Sunday, to remain to hear the organ play. "No," replied the General, "I don't know one time from another, and would rather hear a bass drum than an organ any day."

THE Charleston *Courier* says that business in Charleston is stupidly dull. The people will not be in funds until the cotton begins to come into the market; and without money, or its equivalent, trade cannot be conducted.

THE fitness of things is hardly a characteristic of Virginia chivalry. The people of Ball's Bluff propose to have a grand ball for the purpose of obtaining funds to improve their grave yard.

GENERAL SHERIDAN recently finished a tour of Texas. He was asked how he liked the State, and said in reply, "If I owned it—I and Texas, I would rent Texas and live at the other place."

MR. THOMAS DARLINGTON died at his residence in Birmingham township, Chester county, Pa., on the 17th ult., aged 82 years. He lived and died on the spot where he was born.

HE is a great simpleton who imagines that the chief power of wealth is to supply wants. In ninety-nine cases out of a hundred it creates more wants than it supplies.

THE Lawrence (Kansas) *Tribune* says: "We have reliable information, from various sources, that the wheat crop throughout the State is looking remarkably well."

THE University of Cambridge, (Eng.) by a vte of 107 to 81, has refused to allow lecture upon American history to be delivered to the students of its colleges.

THE Syracuse (N. Y.) *Courier* mentions the death of William Otley, a pensioner of 1812, at the advanced age of one hundred and six years and seven days.

AT last accounts, Professor Agassiz had collected in Brazil specimens of nine hundred and seventy species of fish, of which eight hundred were new.

ILLINOIS cotton commands a premium of five cents per pound, and this fact is producing decided effect in the culture of the staple in that state.

SPECIAL NOTICES.

AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and disease will be dislodged from the system, the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. Those if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Thus relieved by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Consumption, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and other Bilious Fevers, indeed for the whole class of diseases originating in that cause, or a derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the several cases of Chills and Fever, and Ague, in which it has the advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by R. A. FARNESTOCK & SON & CO., and by all Druggists.

RETROUVEYN'S TURKISH JANOLENIAN HAIR TONIC, THE DRESSING AND RESTORER OF THE AGE TURKISH RANDOLENIAN.

RETROUVEYN'S TURKISH RANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? The *Restoring & Turkish Randolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, England, in America—everywhere where the "Randolenian" is known—it is honored the *se plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

SATURDAY, March 17, 1866.

Those who a week since predicted a steady reaction in the premium on coin, until it would again touch 137, perhaps, 140, have been doomed to grevious disappointment. So far as known, the Government have been but spare sellers this week, and yet, quotations have not been above 128 for more than a few hours at any time since Saturday a week, and the New York market closes this evening at 127@ 128¼. Reasons in plenty are given to account for the decline, such as a strong bear movement in Wall street assisted by all who wish to make cheap spring purchases in the dry goods line—sales by Government brokers, etc; but the real reason is withheld, namely, that the credit of the Government at home and abroad *is now equal to a specie basis.* The immense revenues pouring into the Treasury from every side, serve daily to convince the public of this fact, and were commercial and manufacturing interests but adjusted to the change, the Government might within twelve months pay coin to all who desired to relieve themselves of any of Uncle Sam's due bills. It is for merchants, traders, bankers, and manufacturers to calculate—not can the government pay its bonds, and redeem its greenbacks, but can I so shape my business that a depreciation of twenty-five or fifty per centum in nominal values will not leave me among the list of bankrupts. If your goods are paid for, the question does not hit you, if they are not, it does with tremendous significance; and paid for or not, let us tell you an open secret, that the cheapest article in the market to-day, and will continue to be as we come down step by step to a specie basis, is one of Uncle Sam's greenbacks.

The stock market has been dull throughout the week. Governments (gold-bearing) have been steady without much inquiry. Seven Thirties are more active, and sell at 99¾ @ par, without trouble. There is nothing doing in City and County bonds. A lot of County Fives were on the market to-day at 75, but found no buyers. Connellsville Sixes sold at 79½. Allegheny Valley Railroad Sevens offered at 97— without sale.

Railway shares inactive—no sales reported. Insurance stocks heavy, lots offering; buyers wary. Bank stocks continue to be firmly held, though, in some instances, sellers are willing to concede a little. The current bids are nearly as follows: Bank of Pittsburgh, 85; Exchange National, 65; M. & M. National, 69; Third National, 124; German National, 160; Allegheny National, 57@60%; National Bank of Commerce, 108; Peoples' National, 108½; Citizens National, 59@59½.

Oils have been lost sight of. The old favorite, Columbia, cannot stand up against the present prices of crude. There are no buyers for the stock just now, and scarcely will be until there is a decided change in the oil market, or Congress does its duty and takes off the onerous tax. The stock is offered for sale at 21½ rather freely, and would not be easy of sale at 21. Dalzell is steady in the Philadelphia market at 13½@13¾. Buyers at the former rate find it difficult to pick up the stock in either this market or in Philadelphia.

We clip the following paragraph from the New York *Times*, and add a few comments:

"The National Bankers Express Co. has been absorbed in a general consolidation of the leading express companies. The National is to call up fifty per cent of their ten millions of stock, and then take the rank of one-fifth interest in the consolidation of interests. The companies will then stand in the following relation:

Adams Express Co	$9 000 000
American Express Co	6 000 000
United States Express Co	5 000 000
National Express Co	5 000 000
Total consolidated capital	$25 000 000

"The new arrangement will give the shareholders of the Adams Co. 2½ of new for each share of their old stock, and leave a surplus of property and cash to be divided in the way of extra dividends. The shareholders of the National Banks will receive one share of new stock *on payment of fifty per cent* on the original stock. The bargain and sale, it seems, has been completed, and nothing remains for 'outsiders" (Western shareholders) but *to pay up, or sell out.*"

The National Bankers Express Co., was started *avowedly* for the purpose of competition, lowering the rates on one of the greatest monopolies in the country. National Banks, bankers and merchants in this city, and throughout the West, subscribed to its stock under the express agreement that the company should be organized and put into work. True, some doubts were expressed in regard to the Syracuse gentlemen who were foremost in starting the company, doubts which weighed so strongly with one or more of our banks, that they refused to take any interest in it, but assurance of their standing ability and good intentions, were so numerous, and the object to be obtained, cheaper carriage, was in itself so desirable, that a large amount of the stock was taken in this city. The capital stock of the company was placed at ten millions, five per cent of this amount was paid up at the date of subscription or soon after, and it was agreed that five per cent more, *and only that amount*, should be in case of losses, making it necessary, should it ever be called in. How stands the case? Five per centum has been paid in, the unsuspecting shareholder dreaming of lower tariffs on shipments of coin, bank notes or dry goods, and expecting to pay up his extra five per cent when called upon, finds to his dismay that it was all a dream—the Syracuse gentlemen have sold him out, and the monopoly is, and will be for years to come a "fixed fact". In addition to that, the capital stock is reduced one half, he is asked or ordered, to pay up forty per cent (the par value of the new stock) instead of ten, failure to do which, within a certain time, works a forfeiture of his stock. A nice arrangement truely, and pleasantly agreeable to the sleeping shareholder. Wise heads now aver that the Company was gotten up for the purpose of sale. We dont say so, neither do we say that certain gentlemen already named lined their pockets in the operation, at the expense of Western shareholders—what our thoughts are, is quite another question. We know that a number of our banks and bankers have disposed of their stock without delay.

—*Thompson's Bank Note Reporter* says:

It is quite evident that they who take good care of their money for a year or two, even at a low rate of interest, will be the best financiers. Acting upon this idea, the First National Bank of this city has bound itself by a resolution of the board of directors not to discount paper, but to base all its loans on United States and New York State bonds and Treasury notes as security for their prompt payment. Hence this bank has always been able to make advances to its correspondents and customers. Intimately connected with this peculiar system of banking, the First National Bank adopted the system of issuing Deposit Receipts to those not wishing to open a permanent account. These receipts are payable on demand, and bear four per cent interest, if not drawn within seven days from their date, thus carrying into practice the most perfect and convenient Saving Bank ever organized in this country.

—The Cincinnati *Gazette*, of Saturday, says:

The Government continues to draw money from the National Bank depositories, and to transfer it to the vaults provided by the Government. About one million was transferred in this city to-day, and additional drafts are expected next week. This movement tends to render still closer the discount market, and it was fully as difficult to borrow money to-day as at any previous time. Business men, however, manage to get along with moderate accommodations, and there is not that pressure for discounts usually experienced under a close money market. Neither do the bankers show any *signs* of embarrassment, as they are not free sellers of either securities or exchange. Rates of interest, between bankers and their customers, remain at 10@12 per cent and in the open market 15@18 is charged on fair paper.

Baltimore Cattle Market.

BALTIMORE, March 15.—Beef Cattle—The offerings during the past week were 919 head, against 870 head previous week. The general quality of the cattle received was better than last week. Of the sales 228 head were bought by Washington butchers, 77 were sent to the country for stock cattle, 30 left over unsold and the balance were taken by Baltimore butchers. Prices to-day ranged as follows: Best on sale $10, (extra cattle,) average $9.50 @9.75; quality $8@8.25, second do $7@7.50; medium $6@6.75; stock cattle $5.25@5.50; and scalawags and old cows $4@5 per 100 lbs, gross. Up to Wednesday the run of cattle looked as if there were going to be a short supply, and prices ruled 50 cents per 100 lbs higher than last week with an active market. To-day, however, there were 250 more cattle in market than were expected, causing the market to open very dull, with a decline of ½@ per lb, although the offerings were better than last week by 5 per cent. There were 10 head of very fine cattle from Ohio sold at $9.50, and 2 of the very best quality at $10 per 100 lbs. The supply from southwestern Virginia was only fair stock cattle.

Sheep—The supply this week was only fair, with sales at 6@7c per lb gross.

Hogs—The supply has been larger than the demand this week. Sales very slow at $12@ 13.75, and few at $14 per 100 lbs net.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, March 17, 1866.

The produce markets have been dull and neglected throughout the week, the transactions in Flour, Grain, Groceries, Provisions, and produce generally, having been very meagre and entirely of a local character, and while now and again, we have a round lot operation to record, they are of very rare occurrence. In prices, there have been no remarkable fluctuations, though there is no disguising the fact that the tendency is downward.

GRAIN—There is no demand for Wheat, and the market is dull and prices nominally unchanged; sale of 150 bush White at $2.05. Barley is quiet and dull—2 car loads common western Spring sold at 50. Oats in rather better demand, and the arrivals are falling off; we continue to quote at 40@41, on track, and 43@45, from store. Sale of 250 bush Rye at 75. Corn is dull and unchanged.

GROCERIES—Dull and drooping. Cuba Sugar is quoted at 12¾@13; Porto Rico, 13 to 14½; Crushed, 17½; "A" Coffee at 17; "B" Coffee at 16½. Porto Rico Molasses, 80 to 82; New Orleans, 1.00 to 1.10@1.15; fair to choice Rio Coffee, 28@30. Rangoon Rice, 10¾, and Carolina ditto 12.

FLOUR—Is quiet but pretty firm, especially good brands. We continue to quote at $8¾ for Spring; $9@9¾ for half Spring and half Winter, and $10@10¾ for all Winter. Rye Flour is dull at $5@5½—small sales of Cornmeal at 75c per bush.

PROVISIONS—Bacon is dull but unchanged; small sales at 14@14¾ for Shoulders; 16¾@17 for Ribbed Sides; 18¾@19 for Clear do, and 23 for Sugar Cured Hams. Lard is quiet but firm at 18@18¾ for prime kettle. Mess Pork is held at $28½@29 per bbl.

SEEDS—Small sales of Cloverseed at $6@6¼ per bushel—and very dull. Sale of 40 bushels Timothy Seed at $3¾. Flaxseed is in demand at $2.75@2.80.

BUTTER—Is in good demand, and prime to choice Roll may be fairly quoted at 40 to 45—supply very meagre.

EGGS—Demand more active, and prices a shade better, ranging from 20 to 23 per dozen.

CHEESE—Is quiet and unchanged at 20 to 21 for common Ohio, and 25 for Goshen.

POTATOES—In good supply, and a little dull but unchanged, at $1,15@1.20 per bushel, and $3½ per bbl.

DRIED FRUIT—Sale of Apples at 13 to 15—prime bright York State held at 16. Peaches dull and nominal at 15@20, for quarters and halves. Sale of 5 bbls Cherries at 13.

OIL—No. 1 Lard, city make, is quoted at $1,75, while Cincinnati brands are held at $1,85@1,85.

MILL FEED—Is very dull; sale of Seconds at $1 to $1,10 from store, and Middlings at $1,40 @1,45.

HAY—Sales from city scales at $15@20 per ton, the outside figure for Timothy. Baled Hay is dull at $16 to $15.

HOMINY—Is selling at 3c to the trade, and 3¼@3½c in small lots.

BEANS—In good supply and dull but unchanged; small sales from store at $1,75@2 per bushel.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, March 17, 1866.

CRUDE—The Crude market remains about as it has been during the past two days, unsettled and somewhat excited, with but very little doing, as buyers and sellers are still apart in their views. Of course, we have the usual reports of offers having been made to buy and sell thousands of barrels, but these rumors are originated for effect, and consequently we pass them by in silence, as they do not by any means indicate the true condition of the trade. The only sales reported were 150 bbls at 13, and 100 bbls at 13¾, and we are cognizant of 12¾ having been offered for five bulk boats, to arrive, and refused, the seller asking 13. Buyers generally are offering from 12 to 12¾, in some cases, 13, while holders, generally, are asking from 13¾ to 15. Telegrams from Oil City quote Crude at $4 to $4¼, and 4 shillings.

REFINED—There is no falling off in the demand for bonded oil, but there is no improvement to note in prices. April and May deliveries show a trifling fall off, while June and July deliveries are steady, and as yet, prices are pretty well sustained. We now quote at 40 for April delivery, in Philadelphia; 41 for May; 42@43 for June, and 43@44 for July. Sale of 500 bbls for April, buyer's option, at 40, and 500 bbls, free, for immediate shipment at 39, delivered in Philadelphia. The sales of bonded oil during the week have been larger than during any week this year, amounting in the aggregate to fifteen or eighteen thousand barrels, nearly all for future delivery, and those who sold early in the week, realized better prices than those who have sold within the last day or two.

NAPTHA AND RESIDUUM—We can report a sale of 100 bbls Residuum at $4, free on board and this we believe was the only sale made during the entire week. Naptha, there seems to be no demand whatever, and in the absence of sales, we omit quotations.

RIVALS—The arrivals of oil by river have been light for two or three days, owing to the high water and stormy weather. It is generally conceded that the receipts within the next ten days will be large.

MONEY.

The money market was very easy at the close, and there were large offerings at 5 per cent on call. The discount market was easy.

GOLD.

The Gold market became quite heavy later in the day, and fell off to 128@128¾.

The Louisiana Sugar Crop.

The *Empire Parish*, of the 24th ult., says that sugar grinding is over, and the product of the year of 1865 is estimated at 5000 hhds of sugar and 5000 bbls of molasses. The same paper doubts the correctness of the figures of the New Orleans *Price Current*, which puts the parish sugar crop at 4079 hhds. The *Empire Parish* says more than 4000 hhds have already been shipped from the parish to the city, and there are over 1000 hhds still on hand in the sugar houses. With few exceptions, the freedmen have all contracted for another year. Cane planting draws to a close; rice planting will commence in a few weeks, and in April cotton planting will commence. Should the season be favorable, the potato crop will be larger than it was last year. Crop prospects generally are excellent. The parish levees are in good condition, and the health of the people is good.

Baltimore Seed Market.

BALTIMORE, March 15.—Clover has been in better demand; holders in several instances have conceded to the views of buyers, resulting in sales of 500@600 bush fair at $5,50, 250 bu good to prime, mostly in small lots at $6@6,25. Timothy early in the week was held firm at $4 @4,25, with small sales of prime at the latter, but at the close was dull; large lots offered at $3,75@4, and nothing selling at $4. Flaxseed is firm; early in the week sales were reported at $2,50, but at the close $2,55 was paid.

RIVER, WEATHER, ETC.

The weather yesterday was cold and clear and seemingly settled, while the river is receding slowly, with eleven feet in the channel evening by the Allegheny marks. Business continues very dull, both as the Allegheny and Monongahela wharves, and what is worse still, the indications for any immediate improvement, are by no means encouraging.

There has not been a single transient arrival since our last report. The importer, arrived from St. Louis early Friday evening, and the Nora, from Cincinnati, and not arrived up to last evening, although over due. The Bayard, from Parkersburg, and the Emma Graham, from Zanesville, had not arrived up to five p. m., but they would doubtless get in during the night, and will be found in port this morning.

The Pine Grove, Capt. Anawalt, left on Saturday evening, with about all the freight she could take, and quite a number of passengers.

The Kate Putnam cleared for St. Louis, with an excellent trip, and the Peter Balen, for Missouri river, also got off. The Forest City, for Parkersburg, and the Queen of Pearl, for Pomeroy, did not get off until late Saturday evening, being afraid to venture out in consequence of the very stormy weather.
